# ELECTRONIC LOCK FOR LOCKERS

---

We look for solutions adapted to the different situations and to these new multi-purpose spaces.

- CET electronic lock for lockers.
- CEM electronic lock for furniture and lockers.
- ONLINE locker management through the software.
- Integrated solutions using Web services integration capabilities.

## CONTACTLESS

Opening by approaching an authorized card (mifare). Temporized locking (CEM only) or by approaching a card.

## STANDALONE

Without cables, battery operated.

## FREE/ FIX ASSIGNMENT MODES

## MASTER CARDS

Master cards can be generated for opening and locking any of the lockers.

## MULTIPLE OPENING. AUTOMATIC OPENING

## SOFTWARE & ENCODER REQUIRED

## INVISIBLE

It remains hidden behind the furniture door, being very aesthetic.(CEM only)

## WIRELESS AUDIT TRAIL\*

## ONLINE OCCUPANCY VISUALIZATION\*

Locker status (open/closed), user identification, incidence detection...

\* Only wireless energy savers.

# ACCESSORIES

---

Encoder

Infoterminal

Cards

## INFOTERMINAL

By approaching the card/bracelet (a beeps indicates the reading), It shows the locker number taken by the user or free in case that there is no locker occupied.

## SOFTWARE AND ENCODER

The reader has a USB connection with the card encoding software. It allows reading and encoding the compatible Mifare card/bracelets.

# SOFTWARE iVIEW FOR LOCKERS

## REMOTE MONITORING

Locker occupancy monitoring (free/ occupied,card used/ battery status...).

## AUDIT TRAIL

It shows the events generated by the locker in a date and time, such as: user locking/master locking/ user opening / opening rejection for cancelled key/ locking rejection for low battery...

## REMOTE LOCKER OPENING

Lockers can be remotely opened from the software.

## CUSTOMIZED REPORTS

Informs about sensors' errors, communication errors...

## INTEGRATION

It can be integrated with another software by means of web services.
