

locks for Lockers

OMNITEC offers a **simple, practical and secure** clocker management system with the **E-locker** range of electronic locks.

OMNITEC electronic locks for lockers are the ideal solution for keeping the belongings of users and employees of health centers, spas, gyms, sports centers, education centers, company dressing rooms, etc. as well as in the usually shared room closets of hostels.

E-LOCKER MIFARE PLUS

Simple and fast installation in lockers and cabinets made from wood, sheet metal, plastic, phenolic, etc., thanks to its standard Euro size.

Discreet design, adaptable to doors with a thickness of up to 30mm.

2 different modes of operation:

- Owner: for lockers exclusively used by one person
- Allocation: the user uses the free lockers that are available at any given time

Management system with its own software.

E-LOCKER STYLE MIFARE

Integration with OMNITEC locks, **the same MiFare card for the room and the locker.**

Fast installation in lockers and cabinets made from wood, sheet metal, plastic, phenolic, etc.

Modern, easy and intuitive design for the user. Integrated handle for easier use of the locker.

Allocation: the user uses the free lockers that are available at any given time

E-LOCKER STYLE KEYPAD

Easy management without cards; operates by code.

Possibility of opening with MiFare Card to simplify its use by employees.

Fast installation in lockers and cabinets made from wood, sheet metal, plastic, phenolic, etc. Integrated handle for easier use of the locker.

Allocation: the code is recorded on closing and is deleted after opening. The user uses the free lockers that are available at any given time

Energy savers

One of the priorities of OMNITEC is its commitment to the environment and to contributing to saving energy in hotels, apart-hotels, residences, universities, public buildings, offices, etc.. The OMNITEC energy savers are devices that allow up to 60% of the electrical consumption of the buildings where they are installed to be saved.

BUILT-IN ENERGY SAVER

Simple: activated with any card.

MiFare: operates exclusively with MiFare cards, without reading credentials.

SMART ENERGY SAVER

Smart: activates the electrical installation with just the room's own MiFare card.

Its two relays are activated, or not, depending on the guest or service credentials.

WIRELESS ENERGY SAVER

Wireless energy savers work in conjunction with the wireless motion, door and window sensors in those facilities where the room is accessed via Smartphone; with all-inclusive wristband, key ring, card, etc.

Wireless energy savers are available in wall and DIN rail versions:

- **Wall:** energy savers and sensors are activated by inserting the room card.
- **DIN rail:** this is integrated into the light box, simplifying its installation and without interfering with the room aesthetics.

features

- Recessed and surface models
- LED indicator
- Available in different colours
- Courtesy light 10 to 30 seconds
- Allows work with automated systems, energy management systems and lighting controls
- Current: 16 A
